Report of the Webinar/ Event / FDP Program:

a) Introduction:

The webinar was planned to sensitize students about the field of Data Science. Organizations are investing heavily in data science talent to stay or move ahead of their competitors. As a data science aspirant, you couldn't have picked a better time to change your career!

However, switching to a career in Data Science has its own challenges for freshers as well as for experienced professionals. Some of the most common challenges faced by Data Science aspirants are:

- Can non-technical people transition to Data Science?
- Will an experienced professional be treated as a relative fresher when he/she makes a switch to data science?
- Which Data Science role should they consider?
- Will their existing skill-set be useful in Data Science?
- and more such questions.

To help address all these concerns and "How to make a successful switch to Data Science" The webinar was conducted virtually with a duration of 1 hour on dated 28th May, 2021.

b) Objective of the webinar/ Event / FDP:

The Objective of this workshop is to encourage the students about the field of Data Science and how they can transit their career as Data Scientist.
