Brief Report:

Modern art is the creative world's response to the rationalist practices and perspectives of new lives and ideas. Modern art plays an essential role as a stimulus that can provoke independent thoughts and even emotions. Modern art gives the students an opportunity to embrace new ideas and reflect on changes in the world and our lives differently. Keeping this thought in mind, the **Department of Civil Engineering, FEAT, SGTU**, organized an **Excursion Trip to “National Gallery of Modern Art”** located at Jaipur House, Shershah Rd, India Gate, New Delhi-110003, **on 06 April 2022**, for the students (UG & PG program) of civil engineering. From the NGMA collections, students came to know about the evolution of modern Indian art through impressive representations such as paintings, photos, sculptures, etc. Students also learned about the modern sculptures crafted by famous sculptors like D. P. Roy Choudhury, Chintamani Kar and Ramkinkar Baij. Students embrace the history of a particular culture in a visual manner, at the art gallery. Such a one-day educational cum trip rejuvenates the students, from daily routine life.

Outcomes of Excursion Visit:

The visit to the National Gallery of Modern Art enlightens the students about the history of a particular culture in a visual manner and also aware of different forms of painting as well. The Art gallery restores the students' sense of calm and wholeness.

A work of art can influence society by changing opinions, instilling values, and transferring experiences between cultures and time periods.
