

Program Name: BCOM(Hons)			Semester: I		
Course: FINANCIAL ACCOUNTING			Code:		
Teaching Scheme			Evaluation Scheme		
Classroom Session/ Lectures	Practical/ Group work	Tutorials	Credit	Continuous Evaluation	Term End Examination (TEE)
40	-	-	4	40	60
Course Rationale: Accounting is the language of business and finance. A well-functioning capital market closely tracks the performance of a business organization, as communicated through its Financial Statements. This Course aims to equip the participant with the skill set necessary to understand, analyze, interpret and comment upon the Financial Statements. A solid grasp of Financial Accounting strengthens one's ability to understand the current operations of a business, analyze its financial position, and weigh upon its future prospects. These skills would help a manager make sound financial and economic decisions are therefore imperative for building a successful business career. This Course lays the foundation for advanced elective courses in Finance, Accounting and Strategy.					
Course Objectives: 1. Define the meaning & purpose of financial reporting and provide an introduction to the framework of Generally Accepted Accounting Principles (GAAP) 2. To familiarize students with the mechanics of preparation of financial statements 3. Understanding corporate financial statements, their analysis and interpretation. 4. Cover the complete accounting cycle from the first step of journalizing to the final preparation of financial statements.					
Learning Outcomes: After completion of the course, students would be able to: 1. Understanding the commonly used accounting terminology. 2. Identify the users of accounting information and their respective requirements. 3. Understand the process of recording and classifying the business transactions and events. 4. Make the financial statements i.e. profit and loss account, balance sheet and cash flow statement. 5. Understand and interpret the financial statements from different the perspective of different stakeholders.					
Prerequisite(s): Bank statement of passbook and bank column of cash book (for bank reconciliation statement)					
Pedagogy: A mix of pedagogy would be adopted consisting of lecture, discussion, presentation, demonstration and class test. Concept of the topics will be given through short lectures. The extent & quality of learning will depend on the quality & depth of discussion in the class. This in turn depends on the preparation and thinking that has been put in by the students for each session. Readings, Assignments and Numerical problems, whenever given, are a means of focusing on central issues, concepts or knowledge. Students who are aloof to the class-room proceedings or do not read the pre-reading will miss a significant segment of the course. A student's ability to solve problems is also a reflection of the extent to which concepts have been understood. The course is a hands-on course and requires the participant to work out multiple examples to gain confidence.
