screening and awareness drive between October 2018 to February 2019 covering municipal corporation as well as private schools in various localities of Delhi, Gurugram, Faridabad, Ghaziabad, Noida and other NCR areas covering almost 1540000 children.

A pilot phase was initiated from 24th October 2018 to 29th October 2018, to check the feasibility of the activity and to test run all the logistic parameters.

The main survey was initiated from 20th November 2018 till 28th February 2019, wherein 1540000 children by dentists from three different dental colleges from NCR Region. SGT University participated in pilot phase as well as the main survey. The activity was planned in a way that around 40 interns, PGs and Faculty members of the department of Public Health Dentistry were deputed on a daily basis in groups 4-6 members covering both morning and evening shifts of the MCD schools. A detailed schedule list was provided prior to the day of activity by Colgate and accordingly deputation of team members were prepared by the department faculty members. With help of promoters from Colgate hired agency all the logistic arrangements were done. The activity involved screening, oral health Education and distribution of Toothpaste and brush to the school children. The screening involved recording of oral health Performa provided by Colgate. Which involved Demographic Details of the patient, few questions on oral health practices DMFT/def status, oral Hygiene status and treatment required by the child.

The logistical support was provided by Colgate in the form of Performa, hand instruments, sterilization kit, gloves, masks etc. The teams completed the screening of the patients in

Colgate

1. Assess your own oral health
Please answer the questions below to self-assess the health of your mouth

1) Do you have any dental pain at present? ☐ Y ☐ N

2) Have you visited a dentist before? ☐ Y ☐ N

3) How many times do you brush your teeth? ☐ 0 ☐ 1 ☐ 2 ☐ more

4) Do you get pain while eating food? ☐ Y ☐ N

2. Dentist's assessment of your oral health

Oral Hygiene : ☐ Excellent ☐ Good ☐ Fair ☐ Not Satisfactory

Soft Tissues : ☐ Present ☐ Absent

Early Childhood Caries : ☐ Present ☐ Absent

Recommended Dental Care : ☐ Filling ☐ Composite Resin restorations ☐ Endodontic treatments ☐ Extractions ☐ Oral prophylaxis ☐ Emergency dental care

To avail a free dental checkup, please give us a missed call on 1800 266 1235 (toll free) to find a dentist nearest to you.

the stipulated time which was predefined by the organizers. The activity was helpful and educational for the interns and Post Graduates as it exposed them to so many children with different oral health problems. It also helped them in improving their outreach activity skills as they are paramount in public health approaches which lay the foundation of a good preventive programme and health nation. Such Initiatives will serve which be helpful for children as they will inculcate good oral hygiene habits among them which they will carry on throughout their lives and will pass on to the future generations which will lead to the development of a nation with sound oral health which in turn will also improve their general health as it is rightly said oral cavity is the mirror of the body.

Sub: Letter of acknowledgement & appreciation towards dental check-up in primary schools in collaboration with Healthy Smiles, DCI & Bright Smiles Bright Futures Program

Dear Sir,

We at Colgate-Palmolive are extremely happy and proud of our partnership towards the goal of increasing dental awareness and oral health education in primary schools through our flagship program- Bright Smiles Bright Futures Program in collaboration with Healthy Smiles and DCI.

This program was launched as a pilot from 24th October to 29th October 2018 in Delhi but with the tremendous response from the participating schools this was eventually transformed into a full-fledged program from 20th November onwards encompassing significant portions of Delhi & NCR. Till date we have done almost 2 lakh check-ups & none of this would have been possible without the strong support from SGT University & the able dental team led by Dr. Shourya Tandon and comprising of other Public Health Dentistry Staff, PG Students & interns who left no stone unturned in providing dental education through check-ups and correct guidance to children in their formative years of life.

We are enormously grateful to the SGT University for allowing their dental team to visit these schools & help in the noble cause of rendering oral care and education through this program which is expected to extend until 15th March 2019.

Thank you.

Regards,

Organizers: Public Health Dentistry, Faculty of Dental Sciences

Collaborating Partners: Authorities, Sewage Treatment Plant, Dhanwapur

Objective of the programme: Academic-cum-Industrial Field visit

Speaker/ Resource Persons:

Senior & Junior Engineer, Sewage Treatment Plant, Dhanwapur

Audience :

The target audience was Final Year UG Students of Dental College & PG Students of Public Health Dentistry department.

Brief Report of the programme:

An Industrial-cum-Academic field visit to sewage treatment plant was organized for the final year BDS students and Postgraduate students of Public Health Dentistry on 10th April 2019. The event was planned and organized by the department of Public Health Dentistry, Faculty of Dental Sciences in collaboration with authorities at the Dhanwapur Sewage Treatment Plant, Gurugram. The group of Final Year BDS students and Post Graduates of Public Health Dentistry was led by the Faculty members Dr. Sachin Chand, Dr. Amrita Jaggi & Dr. Ankit Kalra along with Mr. Hare Ram as support staff. The field trip was designed to expose students to sewage treatment unit operations, Sewage treatment is the process of removing contaminants from municipal wastewater, containing mainly household sewage plus some industrial wastewater. Physical, chemical, and biological processes are used to remove contaminants and produce treated wastewater that is safe enough for release into the environment. This field visit proved to be useful for students as they learnt the insight about sewage treatment process and usage of the same treated water.

Industrial-cum-Academic field visit to Water Treatment Plant at Basai On 13th February 2017

Field Visit to Water Treatment Plant, Basai

An Industrial-cum-Academic field visit to water treatment plant was organized for the final year BDS students and Postgraduate students of Public Health Dentistry on 13th February 2017. The event was planned and organized under the guidance of Dr. Chinmaya BR, Prof & Head and Dr. Shourya Tandon, Associate Professor. The group of 85 BDS and 3 MDS students was led by the Faculty members Dr. Sachin Chand, Dr. Vaibhav Gupta and Dr. Monika along with Mr. Jagdish and Mr.

Hare Ram as support staff. The field trip was designed to expose students to water treatment unit operations, use of hydraulic equipment (pumps, flumes, etc) and environment regulations. Also the students learnt the water quality parameters so that the water can be safe for consumption. This visit made the students aware about the whole journey of how water, one of the lifelines of humanity,

Advanced Stomato-Diagnostician Association under the aegis of
Department of Oral Medicine and Radiology

Field Visit to Fortis Hospital

28th September 2019

Organizers: Advanced stomato-Diagnostician Association of Department of Oral Medicine and Radiology

Objective of the programme: Field visit to the radiology and radiation-oncology department of fortis hospital to apprise the interns and post graduate students about the various advanced imaging and treatment equipments and their interpretation.

Speaker: None

Audience : Faculty, post graduates, Interns, final year and third year students.

Brief Report of the programme:

Advanced Stomato-diagnostician Association constituted under Dept of Oral Medicine and Radiology, Faculty of Dental Sciences went for a field trip to specialised Oncology Dept, Fortis hospital and research institute Gurugram on 28Sept 2019. The team constituted of faculty, post graduates, Interns, final year and third year students. The students were shown and explained Positron Emission Topography and SPECT. They had a tour to Radiation Oncology division also and were explained about radiotherapy. They were given information about Nuclear Medicine, the various aspects of the speciality, were given a brief understanding of the PET scan, how it is performed and how the machine works. Overall it was a good exposure for the learners and also the students enjoyed it.

Two faculty members- Dr Archana Nagpal and Dr Puneeta Vohra accompanied the students.

PUBLIC HEALTH DENTISTRY

Presents

ORAL HEALTH SCREENING & AWARENESS DRIVE

at

**“Schools in Delhi – National Capital
Region”**

From December 2019 to February 2020

Organizers: Public Health Dentistry, Faculty of Dental Sciences

Collaborating Partners: COLGATE Pvt. Ltd.

Objective of the programme: : School Oral Health Screening & Awareness Drive

Speaker/ Resource Persons:

Faculty Members & Postgraduates & Interns Public Health Dentistry

Audience : The target audience was school children from Government & Private Schools from Delhi NCR.

Brief Report of the programme:

The Department of Public Health Dentistry, Faculty of Dental Sciences, SGT University in collaboration with Colgate Pvt. India Ltd and Indian Association of Public Health Dentistry conducted an oral health screening and awareness drive between 16th December 2019 to 19th February 2020, covering schools in various localities of Delhi & NCR wherein over 1 Lakh children were screened. The activity involved screening, oral health education, distribution of Toothpaste and toothbrush to the school children and insurance card worth 1000 /- from Colgate Pvt. India Ltd. Students and their teachers

Sub: Letter of Acknowledgement & Appreciation towards dental check-up in primary schools in collaboration with Colgate's Bright Smiles Bright Futures Program

Respected Sir,

We at Colgate-Palmolive are extremely happy and proud of our partnership towards the goal of increasing dental awareness and oral health education in primary schools through our flagship program- Bright Smiles Bright Futures Program.

This program was launched as a pilot in October 2018 in Delhi but with the tremendous response from the participating government schools this was eventually transformed into a full-fledged program which was scheduled from November 2019 to February 2020 encompassing significant portions of Delhi & NCR. Cumulatively, we have completed more than 17 Lakhs dental check-ups in Delhi-NCR till date and none of this would have been possible without the strong support from SGT University & the able dental team led by Dr. Shourya Tandon and comprising of other Public Health Dentistry Staff, PG Students & Interns who left no stone unturned in providing dental education through check-ups and correct guidance to children in their formative years of life.

We are enormously grateful to the SGT University for allowing their dental team to visit these schools & helping us in the noble cause of rendering oral care and education through this program.

Thank you.

Regards,

Dr. Sunil Mishra

DEPARTMENT OF CONSERVATIVE DENTISTRY AND ENDODONTICS

Industrial visit to Dentsply Sirona

Date: 8th Aug 2019 Time : 09:30 am -04:00 pm

Venue: Dentsply Sirona Head office, DLF Gurgaon.

Organizers: Department of Conservative Dentistry and Endodontics,
Faculty of Dental Sciences

Objective of the programme: To explore recent advancements in different materials and appliances.

Audience : Post Graduate students and Faculty of Dept. of Conservative and Endodontics

Brief Report of the programme:

Department of Conservative Dentistry and Endodontics, Faculty of Dental Sciences, SGT University, organized an educative industrial visit to Dentsply Sirona Head office located in DLF Gurgaon.

Mr. Avnish Chopra addressed and introduced about the technological advancements in the field of dentistry which has made the life of clinicians easier, accurate and technology friendly.

He explained about the different user friendly materials and systems manufactured by Dentsply Sirona, like the V3 Palodent for perfect contacts and contours, Ceram X and smart dentin replacement composites and smart lite curing light.

The introduction to the materials was followed by a Hands on Session on newer rotary file system and Endomotors.

Dr. Priyanka gave a live demonstration of CEREC, Chairside Economical Restoration of Esthetic Ceramics.

After the session, all the post graduate students and staff were given an opportunity to explore the office, the different materials and appliances.

This trip was highly useful for the students in terms of clinical knowledge and new advancements in technology.

DEPARTMENT OF PUBLIC HEALTH DENTISTRY

Recommended Internship Activities

The department of Public Health Dentistry offers services such as screening, preventive and promotive services along with basic dental treatment procedures like extractions, oral prophylaxis, restorations and Preventive care. The department is actively coordinating outreach activities of the institution. Dental screening and treatment camps are regularly held in villages and small towns in and around Gurgaon. Other conditions which require complex facilities are referred from the camp site to the college hospital for treatment. A dental health education along with demonstration of oral hygiene maintenance is given during school dental health programs to impart dental health awareness among school children. These children are given referral cards for receiving treatment at the college hospital.

Peripheral Dental Centers: Apart from the Dental Hospital at Budhera, Gurgaon 'Dental Health Care Services' are provided to the poor and needy through a well established 'Dental sub-Center'.

Objectives:-

1. To apply the principals of health promotion and disease prevention
2. To have knowledge of the organization and provision of health care in community and in the hospital service
3. To have knowledge of community based preventive measures
4. To have knowledge of the social, cultural and environmental Factors which contribute to health or illness.
5. To educate patients concerning the etiology and prevention of oral disease and encourage them to assure responsibility for their oral health.
6. The interneers shall conduct health education sessions for individuals and groups on oral health public healthy nutrition, behavioral sciences, environmental health, preventive dentistry and the epidemiology.
7. They shall conduct a short term epidemiological survey in the community or in the alternate, participate in the planning & Methodology.
8. To participate in community health monitoring program and services which include preventive, diagnostic and corrective procedures

Sub: Letter of acknowledgement & appreciation towards dental check-up in primary schools in collaboration with Healthy Smiles, DCI & Bright Smiles Bright Futures Program

Dear Sir,

We at Colgate-Palmolive are extremely happy and proud of our partnership towards the goal of increasing dental awareness and oral health education in primary schools through our flagship program- Bright Smiles Bright Futures Program in collaboration with Healthy Smiles and DCI.

This program was launched as a pilot from 24th October to 29th October 2018 in Delhi but with the tremendous response from the participating schools this was eventually transformed into a full-fledged program from 20th November onwards encompassing significant portions of Delhi & NCR. Till date we have done almost 2 lakh check-ups & none of this would have been possible without the strong support from SGT University & the able dental team led by Dr. Shourya Tandon and comprising of other Public Health Dentistry Staff, PG Students & Interns who left no stone unturned in providing dental education through check-ups and correct guidance to children in their formative years of life.

We are enormously grateful to the SGT University for allowing their dental team to visit these schools & help in the noble cause of rendering oral care and education through this program which is expected to extend until 15th March 2019.

Thank you.

Regards,

Sub: Letter of Acknowledgement & Appreciation towards dental check-up in primary schools in collaboration with Colgate's Bright Smiles Bright Futures Program

Respected Sir,

We at Colgate-Palmolive are extremely happy and proud of our partnership towards the goal of increasing dental awareness and oral health education in primary schools through our flagship program- Bright Smiles Bright Futures Program.

This program was launched as a pilot in October 2018 in Delhi but with the tremendous response from the participating government schools this was eventually transformed into a full-fledged program which was scheduled from November 2019 to February 2020 encompassing significant portions of Delhi & NCR. Cumulatively, we have completed more than 17 Lakhs dental check-ups in Delhi-NCR till date and none of this would have been possible without the strong support from SGT University & the able dental team led by Dr. Shourya Tandon and comprising of other Public Health Dentistry Staff, PG Students & Interns who left no stone unturned in providing dental education through check-ups and correct guidance to children in their formative years of life.

We are enormously grateful to the SGT University for allowing their dental team to visit these schools & helping us in the noble cause of rendering oral care and education through this program.

Thank you.

FACULTY OF EDUCATION

FIELD VISIT

SGT UNIVERSITY

SHREE GURU GOBIND SINGH TRICENTENARY UNIVERSITY
(UGC Approved University) GURGAON, Delhi-NCR

Name of the Faculty: Behavioural Sciences

Name of the Event/ Programme: Visit to RVM (Renu Vidya Mandir)

Type of event: Field Visit

Date: 14th February, 2020

Time: 11:00 AM to 3:00PM

Venue: RVM (Renu Vidya Mandir)

Organizers: Faculty of Behavioral Sciences, Department of Special Education.

Objective of the programme:

- 1.To enhance awareness regarding the issue related to Intellectual disabilities and associated conditions
2. Practical exposure of day care of CWID
- 3.To orient the teacher trainees about teaching methodology and Strategies of CWID

Speaker : Dr. Devanand Pandey

Audience : D.Ed./B.Ed. Spl. Ed. Students and faculty of Special Education

Brief Report of the Programme: D.Ed./B.Ed. Spl. Ed. Students of Department of Special education visited to RVM (Renu Vidya Mandir), Sonipat (Haryana). The students were introduced to Principal of RVM, Dr. Devanand Pandey.

Students were taken on a round to witness the facilities of RVM. The institute has strength of 35 regular staff comprising of Principal, faculty member, Psychiatrists, Occupational therapist, Physiotherapist, Psychologist, Admn. Officer, Librarian, Qualified Special Educators and other supporting staff. Students were informed about the multi-disciplinary functioning of the institute. Institute has its own splendid building with spacious, ventilated classroom & hostel, recreational room, open space, playground spread into approx. 2.5-acres of land. The existing building is completely barrier free & also having disabled friendly toilets. It can thus be concluded that this visit was successful and the students believe that the objectives were achieved & they learned something new which will be beneficial for them.

Fashion Show Competition

AMITY DESIGNERS AWARDS

The Amity University, Lucknow organized a fest under the name '**AMIPHORIA 2020**' from 5th Feb to 7th Feb, 2020. SGT University 'Faculty of Fashion & Design' participated in Amity Designers Awards in the fest. The theme for the show was layers on layers. The students from B.Design 3rd year– Astitav, Sushmita, Akash and Pakhi presented the garments in the fashion show. Faculty member Mr. Akash Rawat accompanied the team where they showcased the transforming garments. A new dimension was given to the garments by transforming them on the spot with the help of fasteners. The name of the collection was 'Chrysalis'. It was taken keeping a butterfly in mind. The way the pupa remains enclosed in the cocoon and then transforms into a magnificent butterfly is what this entire collection is all about. 'Chrysalis' is a concept of transforming garments. The idea of this project is to address the issue of 'Fast Fashion'. Chrysalis is all what a fashion freak needs to have in their wardrobe.

There was a competition among 15 fashion shows from various Institutes/Universities, where Faculty of Fashion & Design of SGT University secured the 2nd position. The students of B. Design 3rd year were appreciated and motivated by the Pro Vice Chancellor of SGT University Prof. Gurpreet Singh Tutteja. Dean of Faculty of Fashion & Design congratulate the students and encourage to take part in the competitions as well.

Issue No. 2018/91
SGTU/FFAD/VISIT7/AUGUST/2018

25th August, 2018

Certificate

With reference to the visit to artistic Village - Sanganer, Rajasthan on 18th and 19th of August, 2018 by SGT University fashion students and faculty members. 20 students along with 4 faculty members visited the Sanganer village with the support of Mr. Santhosh Kumar Dhanopia . He has conducted a two days free block printing workshop for the SGT University, fashion students. He took all the Fashion students to the tie and dye division where the art of color on fabrics shown, followed by this the advanced screen printing designing and its process seen by the SGTian's with warm enthusiasm. The new technological printing system is called rotary printing set up and that also visited to learn about the modern techniques.

His support and valuable time devoted to motivate the SGT University fashion students was marvelous and really appreciable.

Artisan : Mr. Santhosh Kumar Dhanopia
Ganesh Colony, Sanganer, Jaipur-302029.

Name of the faculty: Faculty of Law

Name of the event/ programme: Visit to the Supreme Court

Type of the programme: Academic

Date: 28th August, 2019

Organizer: Faculty of Law

Objective of the programme: To expose the students about the proceedings of the Supreme Court.

Brief Report of the programme:

On the 28th of August, 2019, the Faculty of Law organized a visit to the Supreme Court of India. Twenty Four students accompanied by four faculty members witnessed the proceedings on matters related to the Protection of Children from Sexual Offences Act of 2012, Section 498A and Section 304B of the Indian Penal Code of 1860. The students also witnessed the ongoing proceedings regarding matters pertaining to Indigo Airlines and Property.

It was a great learning experience for students and for most of them it was the first opportunity to witness a hearing in the Supreme Court of India.

Faculty of Nursing

Educational visit to National Institute of Health and Family Welfare

Educational Visit

Date: 21.03.2018 Time: :9:00-4:00Pm), Venue: NIHFW , New Delhi, Munirka

Organizers: Ms. Vandana and Ms. Ritu yadav under the guidance of Dean FON Prof. Santosh Mehta, Additional Dean, KVS Chaudhary.

Objective of the programme: As a part of their curriculum to know about functioning of NIHFW.

Speaker: Dr. Rajesh Kumar, Dr. Nanthini Subbiah.

Audience: B.Sc. Nursing 2nd Year

Brief Report of the programme:

B.Sc. nursing 2nd year and M.Sc. nursing students visited National Institute of Health and Family Welfare (NIHFW) on 21st March 2018.

The NIHFW is an autonomous organization, under the [Ministry of Health and Family Welfare](#), Government of India, acts as an 'apex technical institute' as well as a 'think tank' for the promotion of health and family welfare programs in the country.

During the visit, Dr. Rajesh Kumar welcomed our students and gave the overview on NIHFW activities.

Dr. Nanthini Subbiah introduced students regarding the nursing scenario in India/ RCH project and oriented to National Skill Lab "DAKSH".

In skill lab, students were demonstrated with intravenous cannulation.

Dr. Sanjay Gupta and his team oriented the students regarding NCCVMRC (National Cold Chain and Vaccine Management Resource Center), it includes vaccine storage and maintenance. Overall it was very informative and students gained knowledge about the functioning of the institute.

My sincere appreciation for your prompt response & permission. I hope this industrial visit will be an exciting learning experience for the students.

Hereby I am enclosing the objectives for the visit:

- To make students familiar with your largest & best health care & physical set up.
- To visit to your various highly specialized departments.
- To make students aware regarding staffing pattern & organization structure.
- To provide students an enriching first-hand experience regarding evidence based practices.
- To make students aware regarding various new diagnostics and treatment modalities.
- To make student aware of extended and expanded role of nurse.

Time- 10:30 a.m.

ORGANIZERS: Faculty of Nursing organizing a visit to 2nd Sewage Treatment Plant (5.0 MLD) , Jhajjar.

OBJECTIVE OF THE PROGRAMME: The main purpose for this visit was to give the practical knowledge about the sewage treatment plant and the various methods of sewage treatment.

AUDIENCE: students of M.Sc, Nursing Ist year and GNM Ist year by the Department of Community Health Nursing, Faculty of Nursing, SGT University

BRIEF REPORT OF THE PROGRAMME:

A visit to 2nd Sewage Treatment Plant (5.0 MLD) , Jhajjar was arranged for the students of M.Sc, Nursing Ist year and GNM Ist year by the Department of Community Health Nursing, Faculty of Nursing, SGT University on 06.02.2019. The students were accompanied by two faculty members Mr Sunil Dular, Associate Professor and Ms Manisha ,Lecturer. The main purpose for this visit was to give the practical knowledge about the sewage treatment plant and the various methods of sewage treatment. Mr. Bhupinder, J.E., Public Health Engineering Department, oriented all the students to the entire sewage and water treatment plant. A step by step guide was provided to the students describing what happens at each stage of the sewage treatment plant and how various inorganic and organic contaminants are removed . The students were shown the collection, processing and disposal of sludge. These processes included screening, grit removal, aerobic and anaerobic digestion, thickening, blending etc. Through the visit, students got an in-depth knowledge of the various components of the treatment plant. They also became familiar with the working principle and functions of various units of treatment plant such as screens, grit chamber, primary clarifier, aeration tank, secondary clarifier, sludge digester, etc. During the plant visit, students also learnt about daily monitoring of treated water by various chemical analysis of BOD, COD etc. The visit was very helpful for the students to get the practical knowledge regarding the functioning and process of sewage treatment plant

CONCLUSION: At the end of the visit students able to understand about daily monitoring of treated water by various chemical analysis of BOD, COD etc.

ACADEMIC VISIT: INDIAN HEAD INJURY FOUNDATION, DELHI

On 21.04.2022

Rehabilitation is an essential part of recovery after a traumatic *brain injury*. It may include physical, occupational, and speech therapy as well as psychological rehabilitation. It aims to help the brain learn alternative ways of working in order to minimise the long-term impact of the brain injury. Rehabilitation also helps the survivor and the family to cope successfully with any remaining disabilities. MPT-Neurology (Final Year) Students of Faculty of Physiotherapy, SGT University, Gurugram went on Academic visit on 21.04.2022 at Indian Head Injury Foundation (Delhi Commonwealth Women's Association, Health Centre), Delhi. Mission of IHIF is to foster the development of a comprehensive brain trauma care system in India. IHIF has used the services of "The Music Therapy Trust" to regularly provide lessons to patients and victims of Brain Trauma at the IHIF Rehab Centre in the Delhi Commonwealth Women's Association (DCWA) Centre. The centre has been established with a large capital outlay received from charitable donors, and consists of high quality, top of the line rehabilitation equipment like the balance system SD, GAIT trainer with unweighing system, thera trainer, ball pool, standing frame, etc. The facility is focused on the weaker sections of our society who cannot afford expensive, good quality rehabilitation.

Students and faculties were privileged to visit DCWA, Health Centre for consecutively 3 days as it helped them in upgrading their rehabilitation skills through various advanced programs. All the students of MPT-Neurology were accompanied by faculty members Dr. Shweta Sharma (PT), Dr. Vinika Chaudhary (PT), Dr. Arti Gupta (PT) specialized in Neurological disorders, from SGT University to the DCWA, Health Centre for three days. This foundation is having a

physiotherapy and occupational therapy department under the supervision of senior Physiotherapist, Dr. Prateek. They are providing rehabilitation to various cases like stroke, head injury with the help of various advanced programs like virtual reality, advanced gait-training program, etc.

Dr. Prateek has outlined all the programs for neurological rehabilitation of the patients in which he has demonstrated about the protocol and key points to use virtual programs for the patients. Students have also enquired about their queries regarding these cases. This visit was fruitful for students as well as faculties to enhance the knowledge in virtual reality programs for neurological cases to improve the recovery rate of the patients.

ACADEMIC VISIT: Indian Spinal Injury Center (ISIC), Delhi

on 22 23 April 2022

Physical therapy and a rehabilitation program are essential after a number of injuries and surgeries. It serves number of purposes after any kind of injury or surgery as it helps to **improve mobility, increases functional strength, coordination, balance, movement awareness and pain control and to teach the students about the various advanced equipments an academic visit was organized by Faculty of Physiotherapy at Indian Spinal Injury Center (ISIC)** which is one of the most renowned and advanced Spine, Orthopedic and Neuromuscular Surgical centre in India with the latest state of the art diagnostics and surgical equipment. MPT Students along with the faculty members- Dr. Anushree (PT) and Dr. Snigdha (PT) of Faculty of Physiotherapy, SGT University, Gurugram went on an Academic visit on dates 22 and 23 April 2022 at the very illustrious ISIC whose goal is to promote the management of all types of spinal ailment; which can help in preventing paralysis and nerve damage during complex spinal surgery such as deformity correction, tumour excision and reconstruction. Minimal reconstructive techniques are used for prolapsed disc excision/decompression and cementing (kypho and vertebroplasty) / fixation of vertebral bodies.

Hydrotherapy, WII fit, balance master, FES, BWSTT, pressure biofeedback and many other advanced equipments were demonstrated along with Gait training programs and orthotic and prosthetic devices. The students and faculty members visited at ISIC for 2 consecutive days and got a wonderful opportunity to learn about the various rehabilitations being carried out in the center and also the latest kind of rehab machines and tools were demonstrated by the learned professionals followed by a test at the end of the visit for the students. It was an interactive session and the students made it quite interesting by asking questions and showing keen interest in understanding the latest technology.

Naddi Village sunset point, Church, Monastery, Temple, Market tour followed by DJ night in the hotel. On 1st April, everyone left for the Triund trek which started from Bhagsunag temple. The trek was 10 km long. It took around 5 hours to reach to the summit. The view was mesmerizing. It was overnight stay in the camp which included bonfire. The very next day everyone came back from the trek and left for the Dharmshala sightseeing which included Aghanjar Mahadev temple, Norbulinga Tibetan temple, HPCA cricket stadium, War Memorial, Tea Garden, Mall Road. The trip was thrilling and exciting and the trip ended with beautiful memories on 3rd April, 2022. It was really wonderful to see everyone supporting each other throughout the trip. Thanks to AVS tours and trip for organizing such a beautiful trip and adding memories for the lifetime.

Activities Undertaken:

Faculty of Physiotherapy was requested to provide Physiotherapy consultancy to Delhi Lawn Tennis Association for Fenesta Lawn Tennis National Championship, October 2018 at R.K. Khanna Stadium, Delhi for 2 weeks. Dr.Sajjan Pal along with by P.G. Sports students was assigned the job of providing Physiotherapy consultancy during the matches. This provided a good exposure to P.G. Sports students in providing on-field and off-field Physiotherapy. The Delhi Lawn Tennis Association was extremely happy with Physiotherapy provided during the tournament.

Dr. Yogesh Sharma (Co-Advisor, Savant Association & Assistant Professor, Department of Physics, Faculty of Science, FOSC)

Report of the Training Program:

Introduction:

The Department of Science and Technology (DST), Government of India, established a Regional Electron Microscope facility at AIIMS under its RSIC/SIF program. This center is presently known as Sophisticated Analytical Instrument Facility (SAIF) – AIIMS, New Delhi, under the SAIF Program of DST.

Department of Science & Technology (DST) has set up Sophisticated Analytical Instrument Facilities (SAIFs) in different parts of the country under its Sophisticated Analytical Instrument Facilities Programme to provide the facilities of sophisticated analytical instruments to the research workers in general and especially from the institutions which do not have access to such instruments to enable them to pursue R&D activities requiring such facilities and keep pace with developments taking place globally. The instrument facilities provided by the SAIFs are being utilized by 8,000 users every year from academic institutions, R&D laboratories, and industries from all over the country.

Objective of the VISIT:

To carry out analysis of samples received from the scientists/institutes;

To provide facilities of sophisticated analytical instruments to scientists and other users from academic institutes, R&D laboratories, and industries to enable them to carry out measurements for R&D work;

To acquire and develop the capability for preventive maintenance and repair of sophisticated instruments;

Budhera, Gurugram-Badli Road, Gurugram (Haryana) – 122505 Ph. : 0124-2278183, 2278184, 2278185

Brief content of event:

The Department of Physics, Faculty of Science (FOSC), SGT University has arranged the industrial visit for M.Sc. Ist year and IInd year PG students at AIIMs **16 April, 2022**, Dr. Mukesh Kumar, HOD, Associate Professor, Dr. M.T. Beig, Assistant Professor, and Dr. Yogesh Sharma, Assistant Professor, FOSC, SGTU, accompanied the students on an internship during the visit.

The Savant Association, Department of Physics, FOSC, organised an industrial visit to the Sophisticated Analytical Instrument Facility (SAIF), AIIMS, New Delhi. The students from the Department of Chemistry, Forensic Science, Environmental Science, and Physics were taken to the facility. The students were accompanied by HOD Physics, Dr. Mukesh Kumar, Dr. M.T. Beig, Advisor Savant Association, and Dr. Yogesh Sharma, Co-advisor Savant Association, Physics Department, FOSC.

After reaching there, the technical staff introduced the students to biological sample preparation for TEM and Fixation. Fixation is a vital step in preparing biological specimens for electron microscopy. It is a process that prevents autolysis, changes in volume and shape, and preserves the chemical constituents of the cell.

- To preserve the structure of cells and tissues with minimal alteration from the living state.
- To protect them against alterations during embedding and sectioning.
- To prepare them for subsequent treatments such as staining and exposure to the electron beam.

The students were also briefed about the following facilities and visited different labs to see and learn about them with the lab in charge present there:

(i) ULTRAMICROTOME

Ultramicrotomy is a method for cutting specimens into extremely thin slices, called ultra-thin sections that can be studied and documented at different magnifications in a transmission electron microscope (TEM). It is used mainly for biological specimens, but sections of plastics and soft metals can also be prepared.

(ii) GLASS KNIFE MAKER

Glass knives can be produced by hand using pliers with two raised bumps on one jaw and a single bump between the two bumps on the opposing jaw. Still, special machines called "knife-makers" are used in most electron microscopy laboratories to ensure repeatable results.

(iii) AUTOMATED TISSUE PROCESSOR

SGT UNIVERSITY

SHREE GURU GOBIND SINGH TRICENTENARY UNIVERSITY
(UGC Approved)

Gurugram, Delhi-NCR

Budhera, Gurugram-Badli Road, Gurugram (Haryana) – 122505 Ph. : 0124-2278183, 2278184, 2278185

Tissue processing entails a series of processes that take human tissue from fixation to the point where it can be fully infiltrated with an appropriate histological wax and embedded, ready for microtome section cutting. Fixation, dehydration, cleaning, and embedding are the steps involved in tissue processing. Tissue-transfer machines and fluid-transfer machines are the two basic types of automated tissue processors. The tissue processor is used in histopathology laboratories to fix, dehydrate, clarify automatically, and infiltrate tissue samples with paraffin to prepare them for laboratory testing.

(iv) TALOS EDS FACILITY AT TEM

The TEM EDS analysis is an excellent technique for determining chemical composition. Elemental analysis is a technique that can be performed on both materials and metal samples. Although TEM EDS is not a quantitative approach, it may detect small amounts of elemental composition, which can be used to examine for contamination or faults.

(v) HR-TEM (TECNAO)

HRTEM (high-resolution transmission electron microscopy) is a TEM imaging mode that provides atomic-scale imaging of a sample's crystallographic structure. It's a useful instrument for studying nanoscale characteristics of crystalline materials because of its excellent resolution.

Transmission Electron Microscope	Philips CM 10	Acc. voltage: 100 kV; Magnification: upto 4,50,000x; Cryo-attachment	Study the internal architecture of cells and tissues for research, diagnostic, and teaching purposes.
Transmission Electron Microscope	FEI Philips Morgagni 268D	Acc. voltage: 100 kV Magnification: upto 2,80,000x	TEM study as above with image analysis facility.

(vi) SEM

A **scanning electron microscope** (SEM) is a microscope that produces images of a sample by scanning the surface with a focused beam of electrons. The electrons interact with atoms in the sample, producing various signals that contain information about the surface topography and composition of the sample.

Scanning Electron Microscope	LEO 435 VP	Acc. Voltage: 30 kV; Magnification: upto 3,00,000x; Image analyzer system	SEM study as above with low vacuum and image analysis facility.

Organised by

Lavoisier Association, Department of Chemistry, Faculty of Science, SGT University

21 December – 22 December 2021

Organizers: Lavoisier Association, Department of Chemistry, Faculty of Science, SGT University.

Report of the Program:

Introduction: The industrial visit has been specifically arranged to impart the skills of investigation and examination of real casework exhibits submitted in Forensic Science Laboratory among the Final year students of BSc. (H) Forensic Science. The students have been accompanied with Dr. Shalu (Assistant Professor, Dept. of Chemistry, Faculty of Science, SGT University) and Mr. Jamshed (Lab Attendent, Dept. of Chemistry, Faculty of Science, SGT University) for the discipline and proper accomplishment of the industrial visit.

SGT UNIVERSITY

Budhera, Gurugram-Badli Road, Gurugram (Haryana) – 122505 Ph. : 0124-2278183, 2278184, 2278185

Objective of the Event: To let students gain hands-on practical knowledge about a range of analytical instruments and their operation and the corresponding techniques.

Brief content of event on day 1 and day 2:

The students were first given a brief introductory talk by Dr. Rishi about the general analytical techniques being used in their laboratory. He explained the working principles of the different instruments used by them and their applications in measurement of a range of parameters. Dr. Rishi later on supplemented his talk with a brief power point presentation about the same. It was followed by another power point talk by Dr. Naveen who apprised the students with few other instruments being used by him in the laboratory, especially dealing with Rheology.

It was followed by live demonstration of all the instruments, wherein the samples were prepared and measurements were made practically in front of students. The students were shown the components of each instrument and their functioning was explained. Then, the prepared samples were subjected to recording of data and results were obtained. The computer software of each instrument was also explained to students, wherein, they learnt to record and process the obtained data and finally save it in the desired format.

A large number of unconventional instruments, which are usually uncommon in universities and research institutes were studied by the students. The following is the list of those instruments:

1. Density Meter
2. Adsorption Analyzer
3. Atomic Force Microscope
4. Nanoparticle Indentation Tester
5. Particle Size Analyzers
6. Porometer
7. Rheometer
8. BET
9. Zeta Potential Analyzer
10. Viscometer

The students were also introduced to beverage analytical instruments, which are used to measure different properties of all kinds of liquid drinks like cold drinks, juices and alcohol. Such instruments included the following:

SGT UNIVERSITY

(UGC Approved)

Gurugram, Delhi-NCR

Budhera, Gurugram-Badli Road, Gurugram (Haryana) – 122505 Ph. : 0124-2278183, 2278184, 2278185

1. Alcohol Meter
2. Beverage Analyzer
3. CO₂, Oxygen and TPO Meter

DAY 1: 21st December 2021

In this visit, students have learned about various analytical techniques which will be helpful for them in the Synergy project, scholars project and their research projects.

Students have got exposure and analytical knowledge about the following instruments: BET, Viscometer, Rheometer, AFM, Ultrasonicator, Microwave, Density, stress and strain measurements instruments, etc.

- Students have learned about the instrumentation, working, principle, software knowledge, applications and operating mode of the above-mentioned instruments
- Students have also learned the importance of analytical techniques in research, job, and higher education at Anton Paar, 582, Udyog Vihar, Phase V, Gurgaon 122001. Students have gained practical and theoretical knowledge enthusiastically

Glimpses of training program:

Image 3:- Student learning various software tool for physical properties measurement of materials.

DAY 2:22nd December 2021

The students were first given a brief introduction to the different analytical techniques and working principles of various instruments through a power-point presentation. It was followed by live demonstration of the instruments wherein the samples were prepared and measurements were made practically in front of students. The students observed and learnt the working of a number of analytical instruments such as Adsorption Analyzers, Atomic Force Microscope, Density Meter, Nanoparticle Indentation Tester, Particle Size Analyzers, Porometer, Rheometer, BET, Zeta Potential Analyzer and Viscometer. The students were also introduced to beverage analytical instruments like Alcohol Meter and Beverage Analyzer.

The visit was very fruitful for students as they gained hands-on practical knowledge about a range of analytical instruments and their operation and the corresponding techniques. They also learnt how these analytical measurements are important in our daily life activities and products. This will help the students significantly in their research-related activities and projects.

Environmental Awareness Camp

At

Khera Khuram Pur, Gurgaon

08 February 2019

Organizers: Department of Environmental Science, Faculty of Science

Objective of the programme: To aware students about the importance of wetlands.

Brief Report of the programme:

World Wetlands Day is celebrated internationally each year on February 2, 2020. It marks the anniversary of the signing of the Ramsar Convention on Wetlands of International Importance, in Ramsar, Iran, on 2 February 1971.

On the occasion of World Wetlands Day, Department of Environmental Science, Faculty of Science, SGT University, Gurugram organized a visit on 3rd of February, 2020 to Bhindawas Wildlife Sanctuary situated in Jhajjar district. Students and Faculty members participated for the visit at Bhindawas Wildlife Sanctuary. The visit was aimed at awareness of the students about the diversity of wildlife and wetlands. The students also enjoyed watching the migratory birds very closely. It was a learning experience for the students as it provided them a deeper insight into nature, wildlife, and wetlands.

INDUSTRIAL VISIT REPORT

Date of Visit: 21st April, 2018 (Timing 9A.M. - 4P.M.)

Name & Address of Organization: Key Research & Development Centre
Unit of Crystal Crop protection Ltd.
VPO Nathupur, Sonipat (Haryana)

An industrial visit to “Key Research & Development Centre”, was organized by the Department of Chemistry on Saturday, 21st April, 2018. Thirty five students (Post graduate & undergraduate) and two faculties visited to Key Research & Development Centre to understand the latest technologies and developments in the field of research.

In the afternoon at 1 P.M. we reached Key Research & Development Centre. At first, all the students were addressed by the Head, Key Research & Development Centre to give students information regarding the type of work being done in that organization. Students were divided in two batches for the visit to labs. Students visited Organic synthesis and Analytical labs. They had a very informative and interactive session with the Head, Key Research & Development Centre where they were also motivated to select their area of interest in research.

Outcomes of the visit are:

1. Students gained experience of how industry operations are executed.
2. Industry visit played a role of bridging the gap between theoretical training and practical learning in a real-life environment.
3. With industry visit, students were able to better identify their prospective areas of work in the overall organizational function.
4. It helped in enhancing interpersonal skills and communication techniques.
5. Students became more aware of industry practices and regulations during industry visits.
6. Students experienced the importance of working safely.

Environmental Awareness Camp

At

Khera Khuram Pur, Gurgaon

08 February 2019

Organizers: Department of Environmental Science, Faculty of Science

Objective of the programme: To create Environmental Awareness amongst common mass

Speaker: Dr Simranjet Singh

Audience : Local Villagers of Khera Khuram Pur

Brief Report of the programme:

Department of Environmental Science, Faculty of Science organized Environmental Awareness Camp at Khera Khuram Pur Village, Gurugram. The following points have been discussed with Local villagers during this camp:

1. Discussion with farmers for technical cultivation practices for the month of February.
2. Discussed preventive measures for fruit borer of brinjal at farmers field and advised the farmers to follow ratooning of crop to control the problem.
3. Demonstrated the impact of hailstorms on wheat and mustard.
4. Inspected the waterlogged wheat fields.
5. Visited wheat lodged fields at different locations in the village.
6. Discussion with Sarpanch about the previous work done and future strategies in the field of agricultural sciences.

Name of the Faculty: Physical Sciences

Name of the Event/ Programme: Industrial visit

Type of event: Industrial visit

Date: 16th February, 2019

Time: 9.30A.M.- 3.30 P.M.

**Venue: SVI Analytica, Udyog Vihar, Phase-V
Sector-19, Gurugram (Haryana)**

Organizers: Department of Chemistry, Faculty of Physical Sciences

Objective : To demonstrate the PG students a live experience of working of analytical instruments

About the Speaker/Guest: Engineers of SVI Analytica

Audience: PG students of Department of Chemistry, Environmental Sciences, Physics & Mathematics

Brief Report: Students were demonstrated a live working of widely used analytical instruments like High Performance Liquid Chromatography (HPLC), Gas Chromatography (GC) and Atomic Absorption Spectrophotometer (AAS). Students were also exposed to functioning of other instruments like Isotope Detector, Centrifuge, Viscometer, Automatic Fume Hood. Various applications of these instruments were also described by the scientists of SVI Analytica. This visit improved their knowledge about the functioning of several instruments and their importance in micro and semi micro analysis in Food industry, Environmental Chemistry, and Synthetic Organic Chemistry.
