Policy on Career Advancement and Salary Increment for the Awardees

1. Introduction:

Career advancement is a Broad domain that encapsulates several factors related to professional goals and ambitions. An Individual's ability to envision professional goals and put them into action can lead to career advancement opportunities. For any professional, it is important to understand how one can better oneself within the organization. In order to have enhanced performance and promote teaching faculty to continually evolve their skills and contribute effectively to the teaching-learning cycle, teachers should be appreciated for their performance in academic and research activities. The provisions of the policy will provide incentives for highly motivated and qualified teaching faculty to remain committed to striving for better career advancement.

2. Terms & Definitions:

Career Advancement: Career advancement is the process by which professionals across functional areas use their skill sets and determination to achieve new career goals and more challenging job opportunities.

Incentive: An incentive is something that motivates or drives one to do something or behave in a certain way.

3. Objective:

- To provide guidelines about the provision of Career Advancement to teaching faculty who receive awards/ recognition at State National and International levels.
- To motivate the faculty members towards a better career.
- To promote research aptitude among the faculty members.
