[About Us](#) / [Incubation](#) / [Insights](#) / [FAQ](#) / [Contact Us](#) / [Events](#)

ACIC at SGT

Atal Community Innovation Centre at SGT University aims to create design-aware societies, enabling them to leverage design principles to be able to build more human-centric, meaningful innovations. This is being achieved by creating repositories of knowledge centred on the core design principles of sensitivity, knowing and finding experience, and sustainability which will be accessible across centres for encouraging growth.

ACIC

The Toolbox for Innovation in Jhajjar District, India, has been created by SGT University to provide a nurturing environment that can foster social innovation and entrepreneurship.

We enable ideas with the potential to achieve proof of concept and eventually scale.

We do this primarily by providing financial support, physical space, and mentorship through our grants & partnership programs.

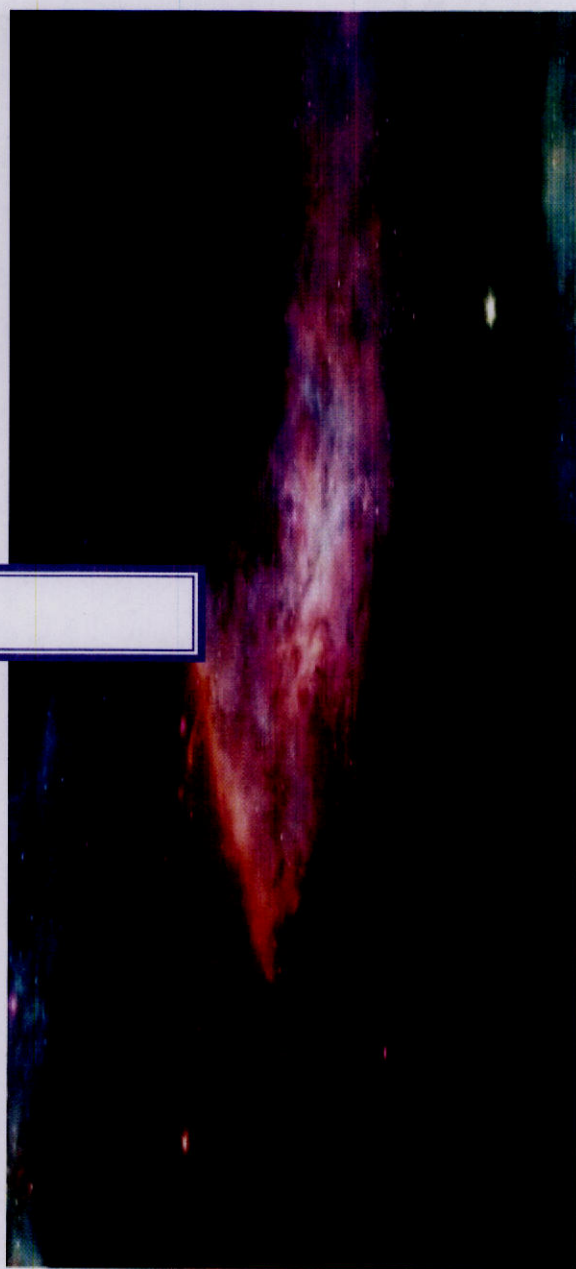

Our success hinges on our proven ability to work closely on the ground with our partners while providing strategic support to help them achieve scale and impact.

These programs help develop the human capital that powers enterprises and innovation inside the Toolbox.

CCSP

ABOUT

The Tharu Padmanabhan Centre for Cosmology and Science Popularization (CCSP)

CCSP is a newly established autonomous Centre of excellence at SGT University, Gurugram, Delhi-NCR, Haryana, India. The Centre is fully dedicated to hard-core research in cosmology and popularizing science to grassroots level in the society.

A university unlike a research institute is supposed to provide a complete package aiming to produce all round intellectual culture necessary to groom excellence as well as rational thinking in the society. Our universal focus is to produce all round intellectual culture necessary to groom excellence as well as rational thinking in the society. CCSP is aimed to be multidimensional and multi-directional, which makes this centre unique. There are four major components of CCSP: Excellent research in Cosmology and Particle Physics, Popularization of science for the common mass, Visitor's Program for the students and researchers and PhD program with advanced courses in Physics and Mathematics. The aim of the Centre is to build strong foundations of research in the areas of Cosmology, Astrophysics, Particle Physics and allied areas through its diverse programs together with the popularization of science for the development of scientific temper and scientific culture in the society by involving school students in our programs.
